

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

(The following two sentences are in Spanish relaying information on the importance of this notice. Translated to English, it would read as follows: [This notice contains important information regarding your drinking water, please read the Spanish notice if it is included. If the Spanish notice is not included, please contact the water system and ask for a copy.])

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

## MONITORING REQUIREMENTS NOT MET FOR TRACT 180 MUTUAL WATER COMPANY

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the 2020-2022 Compliance Period, we did not complete all monitoring and testing for Synthetic Organic Chemicals (SOCs) and therefore, cannot be sure of the quality of our drinking water during that time.

### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
Synthetic Organic Chemicals	2 quarterly samples in a one-year period	1 quarterly sample	During the 2020-2022 Compliance Period	2023-2025 Compliance Period

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

We have since taken the required samples, as described in the last column of the table above. The samples showed we are meeting drinking water standards.

For more information, please contact George Perez or Luis Rodriguez at (323)771-6682 or 4544 E. Florence Avenue, Cudahy, CA 90201

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS:** Must notify employees of businesses located on the property.

## MONITORING REQUIREMENTS NOT MET FOR TRACT 180 MUTUAL WATER COMPANY

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During February 2024, we did not monitor our raw groundwater sources in accordance with our State Board-approved Bacteriological Sampling Siting Plan for coliform bacteria, and therefore, cannot be sure of the quality of our drinking water during that time.

### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
Coliform Bacteria	Monthly at each well	0	February 2024	March 2024

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

**What happened? What is being done?**

" "We have since taken the required samples, as described in the last column of the table above. The samples showed we are meeting drinking water standards. Although the routine monthly samples at the groundwater sources were not collected in February, all samples collected during that time in the distribution system were absent for coliform bacteria.

For more information, please contact George Perez or Luis Rodriguez at (323)771-6682 or 4544 E. Florence Avenue, Cudahy, CA 90201.
